About.

Pantera, formed in 1981, was (or is) a heavy metal band from USA. They had a long career that came to an end in 2003. My interest has always been on their work between 1990 and 2001.

I found the band in 1992, right after the release of *Vulgar Display of Power*. The moment I heard it, I was in total awe. It was — and *still* is — one of the best albums I've ever listened to. Not long after that, I picked up their previous record (for many, considered their "true" debut), *Cowboys from Hell*.

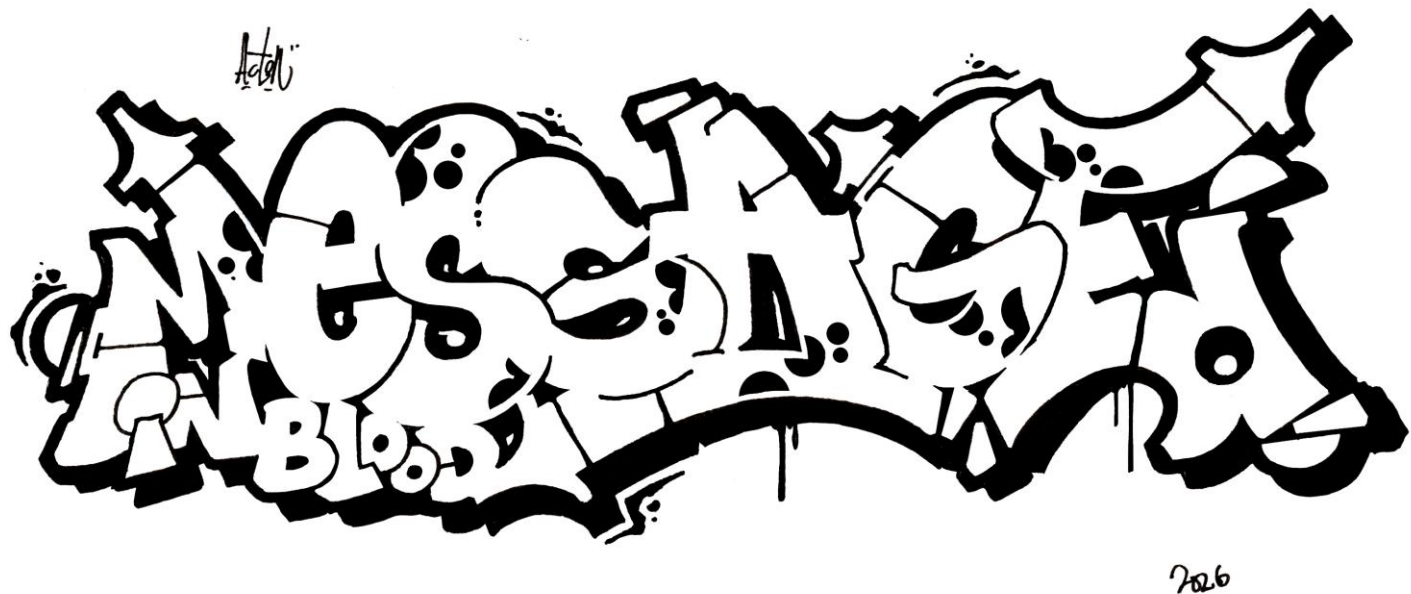

Pantera quickly became a band that everyone in our crew, HRC, loved at the time. So every time I listen to those two albums, my mind goes straight back to the summer of '92 — a time filled with constantly discovering new music, painting a lot of graffiti, and just enjoying the regular life of a teenager to the full.

I was lucky enough to see the band live *twice* during the '90s — first in 1992, when they opened for Megadeth, and again in 1994 as headliners promoting *Far Beyond Driven* album. Naturally I went to see their reunion gig in 2025 as well.
